"The power of words is that they open up a safe space to talk about what are often very difficult issues," said Susan Celia Swan, a spokeswoman with the national V-Day organization.

Born 12 years ago from Eve Ensler's groundbreaking play "The Vagina Monologues," V-Day has grown into a worldwide movement meant to open a dialogue about issues women around the world face, including abuse, rape and subjugation. Ultimately, the movement hopes to end violence against women.

In 2009, more than 4,200 V-Day benefit events took place in more than 130 countries produced by volunteer activists.

In the Valley, students at Arizona State University have performed Ensler's play for the past 11 years, and Estrella Mountain Community College for the past four.

Every year the casts donate the proceeds to local women's-support organizations. ASU's generally raises \$8,000-\$15,000 each year from the play and other fundraisers. Last year Estrella Mountain raised \$280 from the play, and hopes to double that number this
